

Episode 9 – Indie Author Day

What is Indie Author Day? Each year, libraries and organizations around the world welcome local indie authors, writers, and their communities in for a day of education, networking, mingling, writing, open mics, panels, and so much more!

Join Arlington Public Library as we celebrate Indie Author Day through our virtual event <https://www.facebook.com/events/665459544105579> We will showcase local authors through book talk videos and we will have online workshops that focus on self-publishing, how to develop characters, and how to produce a professional book. All virtual content will be available in the discussion board of this event.

Learn more about the authors that will be a part of our virtual event: <https://bit.ly/2G0zQw4>
